Optional Practice Quiz

1/1 points earned (100%)

Excellent!

✔   1 / 1
   points

1.
ALL HTML5 tags must

☑   Have an opening tag

Correct Response
That's the only requirement from this list.

☑   Be lower case, i.e.,

```
<p>
```

not

```
<P>
```

Correct Response
Previous version of XHTML required this. HTML5 does not.

☑   Have at least 1 attribute

Correct Response
No such requirement.

☑   Have a closing tag

Correct Response
Tags like <br>, <hr>, <meta>, etc. don't require a closing tag.

☐ Have an 'id' attribute

Correct Response
No such requirement.
